

Fieldstone Stormwater Management Pond Improvements

PLANNED PROJECT WORK

As part of the 2021 Capital Works Program, the City of Vaughan is planning improvements to the Fieldstone Stormwater Management Pond located in the vicinity of Jevlan Drive and Chrislea Road.

Construction is expected to begin in the fall of 2021.

PRE-CONSTRUCTION FIELD WORK

Commencing in mid-July, City-retained engineering consultants will be in your neighbourhood conducting investigation activities including topographic and/or legal surveys, geotechnical boreholes and other field investigation works. The various underground utilities (i.e. gas, telephone and hydro) may be identified by different coloured paint markings.

IMPACT TO COMMERCIAL PROPERTIES

The City holds an access and maintenance easement at the south end of the Fieldstone Stormwater Management Pond. All equipment access will occur through this easement. Every reasonable effort will be made to minimize disruption to the parking lots adjacent to the pond.

MORE DETAILS TO FOLLOW

Newsletter No. 2 will be issued prior to construction to provide further details including approximate construction start and end dates.

Thank you in advance for your cooperation. We look forward to completing these important infrastructure upgrades in your area.
